CAREER OBJECTIVE

As a frontend developer, my objective is to join a creative team where I can utilize my skills and passion for designing and developing visually appealing, user-friendly interfaces for websites and web applications. I am experienced in HTML, CSS, and JavaScript. I am committed to writing clean, efficient code to ensure optimal website performance and accessibility. I am seeking a role where I can continuously enhance my skills and knowledge in frontend development, and work collaboratively with a team to create innovative, engaging web experiences. I am excited to contribute to a company that values creativity, innovation, and excellence in frontend development.

WORK EXPERIENCE

The projects I have built:

- complicated landing pages
- multiple player game app
- Ecommerce website

Front-End Developer

- Developed and implemented visually appealing and user-friendly interfaces for various websites and web applications using HTML, CSS, and JavaScript.
- Collaborated with UX/UI designers to create wireframes, prototypes, and final designs for websites and web applications.
- Wrote clean and efficient code to ensure optimal website performance and accessibility.
- Conducted regular testing and debugging to identify and fix any issues with the frontend of websites and web applications.
- Stayed up-to-date with the latest trends and technologies in frontend development to continuously enhance the user experience and website performance.
- Worked closely with back-end developers to integrate the frontend with the back-end logic and functionality.
- Ensured the website or web application is responsive and can be accessed on different devices and screen sizes.
- Maintained the website or web application to ensure that it is up-to-date and compatible with the latest web standards and browser versions.
